## CONVEX C200 Series System Diagnostics Documentation

Document No. 760-001730-002

For this release of the CONVEX C200 Series System Diagnostics Documentation, you will receive the following binders and manuals:

Binder Title	Manuals
Volume I/II Processor Diagnostics Manual and Addendum	Processor Diagnostics Manual and Addendum
Volume III Diagnostics Utilities Manual	Diagnostics Utilities Manual
Volume IV Multibus I/O Diagnostics	(manuals shipped separately)
Volume V VMEbus I/O Diagnostics	(manuals shipped separately)
Volume VI Misc. I/O Diagnostics	(manuals shipped separately)

The binders for Volume IV, V, and VI are empty at this point; they are designed to contain diagnostics manuals for optional I/O hardware products. The manuals for these products will be shipped with the individual product.

The binders are set up so that you can put all Multibus product diagnostics manuals in the Volume IV binder, all VMEbus diagnostics manuals in the Volume V binder, and all other diagnostics manuals in the Volume VI binder.
